

SPRING STREET PAVEMENT REHABILITATION PROJECT

CIP # 41907

R.E.Y. ENGINEERS, INC.
Civil Engineers | Land Surveyors | LiDAR

CONSTRUCTION ANNOUNCEMENT

September 16, 2020

Hi Everyone!

This is the first update to the community regarding the Spring Street Pavement Rehabilitation Project. Preconstruction notifications were distributed to adjacent landowners in early September and are available for viewing on the City's website. Construction is scheduled to begin the week of September 21st and be completed mid-November. We will provide construction updates via email to interested parties and post the updates on the City of Placerville's website in an effort to keep the community informed as to the status of this project. Each update will involve a summary of work completed the previous period, work being performed the current period, work anticipated the following period, and any important information that may impact the community. We will provide these updates bi-monthly, at a minimum, but more frequently as dictated by construction activities. Thanks in advance for everyone's understanding and patience through this process.

Project Overview and Exhibits

- The Spring Street Pavement Rehabilitation Project will provide pavement rehabilitation, storm drain improvements, water service improvements and new striping on Spring Street between Highway 49/Coloma Road and Highway 50.
- Spring Street Limits of Work and Anticipated Closures by Phase (See attached exhibit)
- Spring Street Closure – Phase 1 (See attached exhibit) **begins 9-21-20**

Previous Period

- City Council Approved Construction Contract to Doug Veerkamp General Engineering, Inc.

Current Period

- Obtaining permits from City, Caltrans and State Water Resource Control Board to begin construction.

Following Period

- Phase 1 construction will begin on September 21st. Please see attached exhibit for closure and detour information.

Important Information

- Access to residences, businesses, and County facilities will be maintained at all times.
- Please observe construction signage as you travel around the construction area.
- Project Website: <https://www.cityofplacerville.org/Spring-Mosquito>
