Regina- could you please distribute this email to the city council members, Mr Morris, Mr Stone, and Dave Warden. Thank you. - Ruth

Regarding item 12.1 on the agenda. I think good governance would call for a cost estimate of this project; labor hours for design and implementation, and cost of materials. During these times of a tight city budget, it seems this information would be vital for decision making.

I cannot attend the City Council meeting 9/10/24, and would appreciate a brief written response to this letter from any of the recipients.

Thank you,

Ruth Michelson
