I strongly oppose the new restrictions being imposed on us, particularly the ban on single use e-cigarettes. These products are what I personally rely on, and the ban unfairly impacts users like me. Flavored products are already banned in the state so I don't think there should be any more restrictions on the personal choices that adults can make especially when marijuana has been legalized.

It is already illegal for underage children to buy vapes so this only going to affect adults who can make their own decisions.

Sincerely
Elijah Jones
