PRODUCT / SERVICE	DESCRIPTION	QTY.	UNIT PRICE	TOTAL
Tree Removal - Haz Tech Removal from structure with crane required, after hours or weekend rate	Remove tree(s) and/or branches from a structure or object that requires a crane and special rigging techniques to minimize additional damage. Trees that fail onto a structure pose special hazards from weight loads, live branches under stress and potentially from the object it has fallen upon. Qualified climbers with haz-tech removal training will work in conjunction with a certified crane and operator to remove the tree or branches with minimal additional damage. Debris shall be left onsite for disposal by others. 3 man crew plus crane. Immediate removal that requires after hours or weekend work.	1	\$8,600.00	\$8,600.00*
Clean-up Chipping brush and hauling off site	This charge includes the cost of crew and chipper performing clean up. Off haul chips to disposal site after chipping brush or logs is only a small part of this charge. Chips make great mulch and they help reduce water loss when applied at 2-3 inch depth around shrubs and trees.	1	\$375.00	\$375.00*
Clean-up - Haul & dispose of wood	Off haul wood or logs from site and dispose of. We encourage leaving wood on site and cutting to lengths for firewood. When that is not possible, we will remove logs or wood and dispose or recycle.	1	\$900.00	\$900.00*
