SACOG

The Sacramento Area Council of Governments is where local government leaders across the region come together to advance the goals of economic prosperity, connected communities, and vibrant places. SACOG works in collaboration with the 6 counties and 22 cities in the region to solve challenges that are too big for any one jurisdiction to solve on its own. SACOG plays a central role in transportation infrastructure planning and funding assistance for cities, counties, transit operators, and other entities responsible for providing for the mobility needs of the region's residents. One of SACOG's main roles as the state and federally recognized Metropolitan Planning Organization for the region, is to maintain the region's long-range, fiscally constrained, transportation plan and accompanying land use strategy. This plan must be updated every four years in coordination with local government agencies and demonstrate how the region is working to advance local, regional, state, and federal policy priorities. SACOG is currently undergoing an update of this plan, titled the 2025 Blueprint, and anticipates adoption of the plan in 2025.

2025 Blueprint

The 2025 Blueprint is rooted in local planning. Both the land use assumptions and transportation investments included in the plan draw from and remain consistent with city and county general and specific plans as well transit agency planning documents. The 2025 Blueprint differs from many local plans in that it must be constrained by time and funding. Not all planned transportation investments or land use plans will come to fruition within the next 30 years. The 2025 Blueprint in many ways outlines a phasing strategy to help guide public policy decisions throughout the region. This plan will lay out a set of strategies for an integrated, multimodal transportation system and a regional land use development pattern that can create a more thriving region that works for all residents. The plan aims to connect housing to jobs, education, goods and services, and recreational opportunities while protecting and enhancing our region's natural and working landscapes.

Aside from this plan being a federal and state requirement, SACOG will use the 2025 Blueprint update to help local agencies coordinate and prioritize efforts to attract greater investment in the region through grants, private investment, and economic growth while protecting our region's natural environment, existing economies, and improving quality of life for all residents.

At the Placerville City Council meeting, Clint Holtzen, from SACOG, will provide a short presentation and answer any questions on the 2025 Blueprint. The presentation will outline the findings from the region wide transportation and land use analysis. Additionally, the presentation will provide a summary of the various programs SACOG has available or is developing to assist public agencies in implementing the Blueprint locally.
