

PLACERVILLE DRIVE PEDESTRIAN CONNECTIVITY PROJECT

CIP # 42337

CONSTRUCTION UPDATE #10

Week of November 21, 2025

Hi Everyone!

This is our weekly update to the community regarding the Placerville Drive Pedestrian Connectivity Project. Construction started on Friday September 19, 2025, and these updates will continue to be sent via email to any interested parties and posted on the City of Placerville's website to keep the community up to date on the status of this project. Thanks in advance for everyone's understanding and patience during construction.

Current Period

- Daytime work for the upcoming week will include **(weather dependent)**:
 - Complete subgrade preparation, and aggregate base placement for concrete operations on the east side of Placerville Drive
 - Form and pour curb, gutter, and sidewalk on the east side
 - Removal and replacement of the northbound roadway dig-out areas
- No nighttime work planned for the upcoming week
- **Businesses near the project site and their access will remain open during all stages of construction.**

Following Period

- **DAY WORK** – Daytime work operations will include **(weather dependent)**:
 - Install final 2-inch asphalt overlay
 - Install final striping, pavement markings and stamped thermoplastic

Important Information

During the final 2-inch asphalt overlay the Contractor will have traffic control measures in place to direct vehicles and pedestrians through and around the work area. The asphalt overlay work operations will extend the full width of the roadway from HWY 50 to Armory Drive. A detour route will be in place to reduce vehicular traffic on Placerville drive and access to the local business will be limited.

Contacts

Dion Carr, Resident Engineer, Dewberry, (916) 276-4721, dcarr@dewberry.com

Melissa Savage, City Engineer, City of Placerville, (530) 642-5250, msavage@cityofplacerville.org
