

City of Placerville
Engineering Department
Date of Notice: November 9, 2022
**PUBLIC NOTICE OF INTENT TO REVIEW AND ADOPT A MITIGATED NEGATIVE
DECLARATION**

The City of Placerville has prepared a draft Initial Study and Mitigated Negative Declaration report (IS/MND) for the Placerville Drive Bicycle and Pedestrian Facilities Project and is inviting your comments. The draft IS/MND is being circulated for public review and comment for 30 days, and has been placed on the City's website:

<https://www.cityofplacerville.org/environmental-documents>

Copies of the draft IS/MND are available upon request through the City Engineering Department general phone number at (530) 642-5250, or at the Engineering Department counter.

Comments must be received by 5:00 p.m. on **Friday, December 9, 2022**, to be included in final document and considered by the decision-making authorities. Please send written comments to the following address: **City of Placerville, Attn: Melissa McConnell, Project Manager, 3101 Center Street, Placerville, CA 95667** or email your comments to mmcconnell@cityofplacerville.org with "Placerville Drive Bicycle and Pedestrian Facilities" in the subject line.

Subject: The City of Placerville (City), with funding from the Congestion Mitigation and Air Quality Improvement Program (CMAQ) and the Active Transportation Program (ATP), proposes to improve safety and increase bicycle and pedestrian connectivity within the City along Placerville Drive and Green Valley Road. The proposed Placerville Drive Bicycle and Pedestrian Facilities Project (proposed project) improvements would consist of constructing Class II or Class IV bicycle facilities and sidewalk from Armory Road to west of the US 50 undercrossing. The proposed project would also construct sidewalk and bicycle facilities along Green Valley Road between Placerville Drive and Mallard Lane. Additionally, the proposed project includes improvements to El Dorado Transit bus stops within the project limits.

Recommended Findings: The recommended finding is that the project will not have a significant effect on the environment.

Melissa McConnell, P.E.
