

UPPER BROADWAY BIKE LANES AND STORM DRAIN PROJECTS

CIP # 41508 and #42004

CONSTRUCTION UPDATE #2

April 9, 2020

Hi Everyone!

This is our second update to the community regarding the Upper Broadway Bike Lanes and Storm Drain Projects. Construction began the last week of January, and these updates will continue to be sent via email to interested parties and posted on the City of Placerville's website to keep the community up-to-date on the status of this project. Thanks in advance for everyone's understanding and patience during construction.

Previous Period

- Preconstruction bird survey was completed prior to tree removal
- Tree removal operations have been completed along Upper Broadway from Point View Drive to Smith Flat Road
- Underground storm drain and sewer line work will begin from the Schnell School Road intersection to the Golden Waffle Café parking lot
- Construction area signs will be installed throughout the project limits along with the Project Funding Signs
- SWPP measures will be implemented in the current work area along with maintenance of previously installed exclusionary fencing
- Traffic control measures will be in place to keep pedestrian and vehicular access through the work areas, but there may be minor delays
- **Businesses near the project site and their access will remain open and will continue to remain open during all stages of construction.**

Current Period

- Underground storm drain and sewer line work has progressed from the Schnell School Road intersection to the Golden Waffle Café parking lot and will be completed on Friday April 10, 2020
- Work operations will start Monday April 13, 2020 on the South side of Broadway from the Schnell School Road intersection to the Grocery Outlet parking lot – This work will consist of demolition of the existing roadway to make room for the new curb, gutter and sidewalk extension along with a new bus pad
- Concurrent work operations will also start in mid-April on the North side of the Roadway directly across from Grocery outlet – This work will consist of cutting the slope back to widen the existing roadway and installing a new rockery wall to retain the slope.
- Weather permitting an extension will be placed on the South side of the culvert running under Broadway directly adjacent to the National 9 Inn – This extension will allow for the widening of the roadway through this area.
- Traffic control measures will be in place to keep pedestrian and vehicular access through the work areas, but there may be minor delays
- **Businesses near the project site and their access will remain open and will continue to remain open during all stages of construction.**

Thank you!

UPPER BROADWAY BIKE LANES AND STORM DRAIN PROJECTS

CIP # 41508 and #42004

Following Period

- Work operations will progress East on Upper Broadway and consist of roadway removal, grading and replacement
- Sewer line repair work will be performed at various locations along the length of the project
- Construction of retaining walls for roadway widenings
- Traffic control measures will be in place to keep pedestrian and vehicular access through the work areas, but there may be minor delays
- **Businesses near the project site and their access will remain open and will continue to remain open during all stages of construction.**

Important Information

Please see attachment for current work area limits and dates and plan your travel routes accordingly.
