### **Category 12: Light & Sound Distraction Dives, Pepper ball Launchers**

**Make:** Defense Technology

**Model:** Low Roll II 11-gram Non-Reloadable Distraction Device

**Capabilities:**

A distraction device is ideal for distracting dangerous suspects during assaults, hostage rescue, room entry or other high-risk arrest situations. To produce atmospheric over- pressure and brilliant white light and, as a result, can cause short-term (6 - 8 seconds) physiological/psychological sensory deprivation to give officers a tactical advantage. The 11-Gram Non-Reloadable Distraction Device incorporates an M201A1 type fuse with hex design gun steel body. This compact version of the 8933 Low Roll Distraction Device body is the newest version of the original reusable non-bursting canisters that limits movement and rolling once deployed. The steel body is designed to reduce rolling, fit in tactical pouches easily, and deliver the safest and most effective stimuli in the industry.
